

Free Drinking Water Screening Clinics 2021

These events are open to all County residents and are designed for private well owners to have their water screened for nitrate. Nitrate screening is provided by the St. Croix County Community Development Program for FREE!

**May 18th, 2021 2-6 pm, Deer Park Senior Center
(121 Front St. , Deer Park, WI, 54007)**

**July 27th, 2021 2-6 pm, Kinnickinnic Town Hall
(1271 County Rd J, River Falls, WI, 54022)**

**August 24th, 2021 1-5 pm. St. Croix County Services Center
(1752 Dorset Ln, New Richmond, WI, 54017)**

Residents are encouraged to take advantage of free drinking water screening clinics offered by St. Croix County which screens drinking water samples for nitrate for FREE! This program is offered to educate private well owners on how to monitor and protect their drinking water supply. If you plan to attend the event, you must wear a mask and practice social distancing amongst participants and staff by following the signs and taped floors at the event. The clinic is open to any St. Croix County residents who are interested in testing their private well. Participants are asked to bring in about eight ounces of water in a closed container, preferably glass, collected within 24 hours of the clinic. It is important to run the tap for 10 to 15 minutes on cold at full flow before collecting the sample. Residents with water treatment systems, such as reverse osmosis, are encouraged to bring in a sample pre and post treatment. Residents are also encouraged to bring in samples for friends, family, or neighbors who are not able to attend the event themselves. Contact the county for further assistance if needed, 715-760-1994 or cole.webster@sccwi.gov.
