

We just issued a press release announcing that due to the high volume of positive COVID-19 cases, St. Croix County Public Health may not be able to personally contact everyone who tested positive for COVID-19 by phone within 48 hours. Starting September 8, 2021, St. Croix County Public Health will begin sending automated text, phone, and email alerts to residents who tested positive and have not been contacted by Public Health. These automated alerts will have a link to more information about what to do after testing positive for COVID-19.

You can read the full press release here: <https://www.sccwi.gov/CivicAlerts.aspx?AID=193>
